

**MEMORANDUM OF UNDERSTANDING
to join “GoSafe with ESI” as a “Technology Partner”**

**Between
Basel Agency for Sustainable Energy,
Slovak Innovation and Energy Agency,
And
KOOR, s.r.o.**

This memorandum (“MoU”) sets out the terms of the intentions between “Basel Agency for Sustainable Energy” (hereafter referred to as “BASE”), Slovak Innovation and Energy Agency (hereafter referred to as ‘SIEA’), and KOOR s.r.o. (hereafter referred to as ‘KOOR’), to cooperate for the project “Energy Savings Insurance in Europe 2.0 (ESI Europe 2.0)”, managed by BASE and SIEA and funded by the European Union’s Horizon 2020 research and innovation programme. Each party will be referred herein as a “Party” and jointly as “Parties.”

Background

In September 2021 BASE (Switzerland), DOOR (Croatia), CRES (Greece) and SIEA (Slovakia) launched the ESI Europe 2.0, a three-year project aimed at promoting the ESI model (GoSafe with ESI solution) in Croatia, Greece and Slovakia continuing with the efforts made in Italy, Portugal, and Spain to roll out the ESI model (ESI Europe project).

The ESI model targets small and medium-sized enterprises (SMEs) and creates the conditions for them to upgrade specific old inefficient technologies to new energy efficiency (EE) technologies. The project aims to facilitate the flow of financing for relevant technology solutions and address the large untapped market potential. The ESI Europe 2.0 project involves rolling out the ESI model in Croatia, Greece and Slovakia.

Objectives of the Collaboration

This agreement is an invitation for Technology Providers to join “ESI Europe 2.0” project as a Technology Partner.

The main objective of collaboration is to explore with the Technology Provider the feasibility and potential implementation of the GoSafe with ESI solution, together with BASE and SIEA.

This is complemented by supporting the dissemination of success stories that use the GoSafe with ESI solution, promoting energy efficiency through the ESI model, and strengthen the GoSafe with ESI network.

This agreement serves as well to establish the framework for using the logos or trademarks of each other. BASE recognizes the value of joint advocacy, and requests to include the logos of the Technology Provider on the “[ESI Europe](#)” and “[GoSafe with ESI](#)” website and social media profiles.

The technology Provider grants permission to BASE and SIEA to acknowledge the Technology Provider as a Technology Partner, and for this purpose grants permission to BASE and SIEA to use Partner's logo on the page of "ESI Europe" and "GoSafe with ESI" websites and to link this logo to Technology Providers' website. BASE grants permission to Technology Provider to use the "GoSafe with ESI" logo on the Technology Providers website and to make a link to the "GoSafe with ESI" and "ESI Europe" websites. The use of the logo on any other communication materials that are relevant to the initiative (e.g. for use in a presentation that mentions the organization's role in the initiative) requires prior written approval of the other in each case.

All parties agree that the names or logos shall not be granted for commercial purposes.

Neither party will use the name, emblem, or trademarks of the other, in connection with its business or for public dissemination, without the prior expressly written approval of the other in each case.

Parties may mutually agree to modify, such as to add additional components under this MoU, or exclude current ones from the MoU procedures.

Benefits of Technology Provider joining the model during the piloting phase

By joining the ESI Europe 2.0 project during the piloting phase (until 3. August 2024), a list of benefits will be offered to the Technology Provider for kick starting the model in their countries. The list of benefits includes:

- Free Validation Services of up to 1'575 EUR per project
- Free Legal Services for contract adaptation of up to 2'000 EUR per project
- Free promotion through an add product of their choice of up to 1'000 per project.
- Free support from facilitators throughout project implementation
- Promotion of Business through partners channels
- Facilitation during the interaction with Insurance Company and Bank for faster and better service

Funding Arrangement

This MoU does not create any financial or funding obligation on either Party. Neither Party will refer to or treat the arrangements under this MoU as a legal partnership, joint venture or other such business arrangement, or take any action inconsistent with such intention.

Entry into Operation

This Memorandum will come into operation upon signature by the Parties.

Original copies of the text of this MoU written in the English language have been signed on the date stipulated below.

Principle of Good Faith: The Parties shall practice this MoU in good faith.

This MoU does not create any rights or obligations for either Party under national or international law.

Any Party may terminate this MOU at any time and for any reason by giving thirty (30) days prior written notice to the other Party.

This MoU will be terminated on 31st August 2024.
